Refer to our Sickness, Illness & Allergies policy.

AND sore throat, persistent cough, croup Rash, vomiting, diarrhea, a pain and needing one to one care

General - When to Stay at Home.

WHEN YOUR CHILD IS SICK

1. Have up to date plans in place for who we should contact if your child should become unwell whilst in our care.
2. Always keep up informed if your child is unwell or with the signs of illness, even if you keep your child at home, so that we are able to keep other parents informed of any excludable outbreaks
3. Always advise us of any medication your child has been given, up to 24 hours prior to their arrival e.g. an individual dose of the antibiotics/medication during a course of prescribed treatment. Over the counter medications supplied by yourselves, such as pain and fever relief e.g. Calpol

***Please refer to our Sickness, Illness & Allergies policy for our full list of excludable Childhood Illnesses.**
